CAREER OBJECTIVE

Motivated Computer Science undergraduate with hands-on experience in full stack web and cloud application development. Seeking an entry-level Full Stack Developer role to build scalable, secure, and user-centric software using modern technologies.

EDUCATION

Government College of Engineering, Kalahandi <i>Bachelor of Technology (B.Tech) in Computer Science & Engineering</i>	Odisha, India 2024 – 2028
---	------------------------------

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, TypeScript, Go
- **Frontend:** React.js, Next.js, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, PostgreSQL
- **Cloud & Tools:** AWS (Lambda), Git, GitHub, Postman, Linux

PROJECTS

Tekkzy – Intelligent Cloud Applications Platform

- Designed and developed a production-grade full stack cloud platform showcasing automation and software solutions.
- Architected a modern UI using Next.js 16, TypeScript, and Tailwind CSS.
- Built serverless APIs using Node.js and Express.js on AWS Lambda.
- Implemented MongoDB persistence and JWT-based authentication.
- Enhanced UX with Framer Motion animations.
- Designed a real-time inquiry system for secure client communication.

Gyanaratna – AI-Powered Academic Management PWA

- Built role-based dashboards for administrators, teachers, and students.
- Integrated AI-driven academic monitoring insights.
- Designed scalable REST APIs and optimized frontend performance.

Nagarmitra – Civic Issue Reporting Platform

- Developed a civic issue reporting system with map-based tracking.
- Implemented admin workflows and complaint status management.

Nidhisetu – Loan Utilization Analysis App

- Built a React Native application for monitoring loan asset utilization.
- Integrated AI analysis using Ollama models for asset review.

ACHIEVEMENTS & CERTIFICATIONS

- Smart India Hackathon 2025 – Finalist
- BPUT Hackathon – Winner
- College-Level Hackathon – Winner
- Coursera Certifications: Cloud Computing (2)
